

**KEITECH**

A Keitech foi criada em 1996 por Kei Hayashi, um dos principais profissionais do Japão na pesca do Black Bass. Hoje é um dos principais fabricantes do Japão, produzindo iscas altamente eficazes para cada situação.

Nossas iscas são produzidas por um composto de elastômeros de alta tecnologia\*, com adição de sal e essência de lula, tornando nossas iscas com movimentos, sabor e odor extremamente realista.

\* matéria prima biodegradável no meio ambiente e digestiva na barriga dos peixes, não causando impacto ambiental e mortes por ingestão.
